MANGER
PRECISION IN SOUND

COMPACT POWERHOUSE

Experience the full scope of Manger audio quality with our newest passive compact system.

Small only in size

If you prefer to place your speaker on a sideboard or stands than your model is the z1. The physical necessities of two 8 inch drivers and our pursuit to reach a precise and dry bass response has lead us to a compact speaker that is actually a big compact system. You will be surprised how big this small speaker will sound.

Maximum performance, superior body

The visual and acoustical timelessness of this model will satisfy you for decades, especially since you get to choose your individual finish.

Your individual high end finish

You have full control over the way the z1 looks and fits into your personal environment. Whether you want it dark, light, white or fancy a special tone: we'll be happy to receive your wish and produce your personal and individual z1 for you.

Color options

We offer finishes in matte and high end gloss as per RAL or Nextel. You can also choose from a broad selection of finest veneers to match your personal taste.
